

# Growing Green Hearts @ Springbrook Nature Center Teacher Trainings 2016

## Check which training(s) you'll join us for:

- Tuesday, Nov 29th 4:30-6:30 pm**  
**STEMtastic!™** Play while problem solving! Grow an exciting, interdisciplinary science program that is based on student interests, play, creativity, and process. Soil, land, air and water systems are the foundation as we move science to STEM. Meet and greet science basics while clarifying how science standards and environmental Science Technology Engineering and Math (eSTEM) strategies connect with kids and existing curriculum in your classroom.
  
- Monday, Dec 5th 6-8pm**  
**Science Inside Out™** Using hands, minds, tools, and teams we'll practice the processes of "thinking like a scientist" using inquiry, systems thinking, environmental STEM, and the scientific method. Gain knowledge, resources, and interdisciplinary lesson ideas about earth's interconnected air, water, rocks and living things. Participants will carry with them a better understanding of creativity and logic inside their brain, empower students in inventive creative play, and apply problem-solving strategies inside and outside their classrooms. This is a MCPD/Parent Aware approved training geared towards teachers of early learners and elementary students.

Full Name \_\_\_\_\_  
First Middle Last  
 Address \_\_\_\_\_ Phone \_\_\_\_\_  
 City \_\_\_\_\_ Zip \_\_\_\_\_

**Location of Trainings:** Springbrook Nature Center 100 85<sup>th</sup> Avenue NW, Fridley, MN 55432

**Mail Registration form with check/cash to:** Growing Green Hearts, LLC  
 75 Rice Creek Way, Fridley, MN 55432

Where do you teach (school, library, home school, child care center, etc) ?  
 \_\_\_\_\_

What age(s) do you teach? \_\_\_\_\_

Why would you like to learn more about environmental STEM?  
 \_\_\_\_\_

How did you hear about Growing Green Hearts? \_\_\_\_\_

Interested in learning more about...?  
*Future teacher trainings    Natural Playground Coaching*  
*Site visits for kids            Curriculum Development*

**To Bring:** Dress causally and comfortably- we'll be mainly inside doing hands on activities.  
 Bring a bag lunch/dinner if timing is an issue for you.  
 Explore your curriculum goals together by bringing teachers from your school/center.
